

REHMAT ALI

Lahore, Pakistan | +92-324-4646260 | itsrehmet@gmail.com
LinkedIn: linkedin.com/in/rehmat-al | Portfolio: rehmat-ali.vercel.app

PROFESSIONAL SUMMARY

Dedicated Backend Developer specializing in the MERN stack with expertise in Node.js and scalable backend architectures. Proven track record of building complex, production-level health-tech ecosystems. Adept at translating Figma designs into functional business logic and high-performance APIs.

TECHNICAL SKILLS

- **Frontend:** HTML5, CSS3, JavaScript, React.js, Tailwind CSS, Framer Motion
- **Backend:** Node.js, Express.js, REST APIs, Sockets, Firebase push notifications, Redis, Stripe, Cronjobs
- **Database:** MongoDB
- **Tools:** Github, Postman, VS Code, Vite, Vercel, Cursor Ai

PROFESSIONAL EXPERIENCE

Backend Developer

Jan 2026 – Present

Endless Invo | Onsite, Lahore

Project: NavaQare (Full Ecosystem Ownership)

- **Core Modules:** Developed 4-way integration between Patient, Doctor, Pharmacy, and Admin platforms.
- **Health Records:** Implemented complex SOAP Notes, Prescription generation, and Medical/Infectious History logging.
- **Scheduling:** Engineered dynamic timeslot booking, rescheduling logic, and appointment status workflows.
- **Real-time & Security:** Built secure real-time patient-doctor-pharmacy chat using Socket.io and RBAC authentication.
- **Financials:** Integrated Stripe for service payments and implemented Service & Pricing module backend.

Other Key Projects at *Endless Invo*:

- **ExpatCare:** Built Admin & Doctor dashboard stats module, user status toggles (Active/Inactive), and secure OTP authentication system.
- **FlowCareHub & Grupen:** Designed and implemented robust multi-role authentication modules and secure onboarding flows.

Virtual Intern - Backend Development

Oct 2025 – Dec 2025

DevelopersHubCorp (Remote)

- Collaborated on building scalable backend solutions and cloud-native API development using Node.js.
- Practiced clean-coding standards and environment variable security in a professional team environment.

MERN Stack Intern

Aug 2025 – Oct 2025

Codecelix | Lahore

- **Medlink Health Center:** Developed basic CRUD operations for medicine inventory and patient appointments.
- **Medication Reminder:** Built automated reminder backend with basic scheduling using Node.js and MongoDB.

OTHER TECHNICAL PROJECTS

- **AI Business Automation:** Lead team for backend-sync UI.
- **Fullstack E-commerce:** MERN app with Admin panel.
- **Eduisty React:** Responsive UI/UX implementation.
- **Interview Prep App:** Next.js MERN categorizer.
- **Gotto Website:** High-performance frontend clone.
- **React Portfolio:** Tailwinds-based modern showcase.

EDUCATION & CERTIFICATIONS

BS in Computer Science

2023 – Present

Lahore Leads University | *Honhaar Scholarship Awardee*

Technical Trainings:

- **Zaff Institute:** MERN Stack Development (Certificate of Excellence)
- **NAVTTTC:** Advanced Web Development (Punjab Govt. Initiative)
